During the mid-20th century, the philosopher Karl Popper emphasized the criterion of falsifiability to distinguish science from nonscience. Statements, hypotheses, or theories have falsifiability or refutability if there is the inherent possibility that they can be proven false. That is, if it is possible to conceive of an observation or an argument which negates them.

Modern pop culture declares that atheism is a "scientific" worldview. But most of the key contributors to modern science were theists and often Christian.

Quotes about God...if you think science leads to atheism.

Overview. The Department of Energy (DOE) is a cabinet-level agency that has both important energy- and national security-related missions. DOE's roots go all the way back to World War II and the Manhattan Project, the top-secret program that launched America's effort to develop and stockpile nuclear weapons.

All forms of ineffective treatment, "alternative" or otherwise, pose real dilemmas that are usually neglected. I use here the term "alternative medicine", rather than CAM (complementary and alternative medicine), because things that don't work are not medicine at all and can't be "complementary" to anything.
