Plate Tectonics. This free course is available to start right now. Review the full course description and key learning outcomes and create an account and enrol if you want a free statement of participation.

Plate Tectonics: 3.3 Constructive plate boundaries

To a large extent, the early work in plate tectonics was provoked by startling new geophysical observations coming out of the U.S. Navy's newfound Cold War interest in the oceans, where the topographic and magnetic effects of plate interactions happen to be the clearest, and where some 80% of the planet's plate boundaries happen to reside, and

The Earth At Work - cliffshade.com

Plate tectonics. The Indian Craton was once part of the supercontinent of Pangaea. At that time, what is now India's southwest coast was attached to Madagascar and southern Africa, and what is now its east coast was attached to Australia. During the Jurassic Period about 160 Ma (ICS 2004), rifting caused Pangaea to break apart into two supercontinents, namely Gondwana (to the south) and ...

Geology of India - Wikipedia

A transform fault or transform boundary is a plate boundary where the motion is predominantly horizontal. It ends abruptly and is connected to another transform, a spreading ridge, or a subduction zone.. Most of these faults are hidden in the deep ocean, where they offset divergent boundaries in short zigzags resulting from seafloor spreading, the best-known (and most destructive) being those ...

Transform fault - Wikipedia

ELA/Literacy - RST.11-12.1: Cite specific textual evidence to support analysis of science and technical texts, attending to important distinctions the author makes and to any gaps or inconsistencies in the account.

HS-ESS2 Earth's Systems | Next Generation Science Standards

TriTech Some Concepts in Geology • Earth is an active planet in a constant state of change. • Earth movements are vital to the cycles. Without them the land would be eroded down to just below sea level. • Plate tectonics provide the mechanisms for all earth movements. The hot interior of the earth is the ultimate
